EDUCATION

VIT Bhopal University

Bachelor of Technology, Computer Science & Engineering (CGPA: 8.65)

Expected May 2027

Bhopal, India

Mamta Modern Sr. Sec. School

Class XII: 86.4%, Class X: 95.4%

2011 – 2023

New Delhi, India

SKILLS

Languages : Java (DSA), Python, C++, JavaScript, HTML, CSS, SQL

Frameworks & Libraries : React.js, Node.js, Bootstrap, Pandas, NumPy

Cloud Platforms : AWS (EC2, S3, IAM)

Hardware & IoT : Tinkercad, Wokwi, Wiring (C++ for IoT)

Developer Tools : Git, GitHub, VS Code, IntelliJ IDEA, PyCharm, Android Studio, Arduino IDE

Design & Competencies : Figma, Canva, Photoshop, Public Speaking, Team Leadership

EXPERIENCE

Vice President

Aug. 2024 – Present

WiCyS (Women in Cybersecurity), VIT Bhopal Chapter

Bhopal, India

- Spearheading chapter operations and organizing workshops to promote cybersecurity awareness and inclusivity.
- Coordinating with industry experts and faculty to facilitate seminars and skill-building sessions for students.

Core Member, Content & Publications

Aug. 2023 – Present

Startup Club, VIT Bhopal

Bhopal, India

- Managing editorial content and publications to foster an entrepreneurship culture on campus.
- Anchored flagship club events and facilitated panel discussions with industry founders.
- Curating newsletters and social media content, increasing engagement and club visibility.

School Head Boy

Apr. 2022 – Mar. 2023

Mamta Modern Sr. Sec. School

New Delhi, India

- Served as the Head Boy of the school and led the student council, representing the student body in administrative meetings.
- Secured 10+ awards in zonal debate and public speaking competitions during tenure.

PROJECTS

E.A.S.Y - Remote Health Monitoring | IoT, C++, React.js, Node.js

July 2025

- Co-developed a full-stack IoT web platform for real-time patient monitoring, featuring live vital tracking and alerts.
- Led the hardware engineering module, integrating temperature, sonar, and pulse rate sensors for data collection.

Microplastic Detection in Water Samples | Research, Hardware Prototype

- Collaborating on a team research project to detect and quantify microplastic contamination levels in water.
- Assisted in conducting tests on various water samples to validate detection accuracy and reliability.
- Analyzed experimental data to classify particle types and estimate contamination density.

Divyastra - Smart Traffic System | Arduino, C++, Ultrasonic

- Co-prototyped an intelligent traffic control system that prioritizes emergency vehicles to reduce response times.
- Implemented ultrasonic sensors to detect approaching vehicles and automatically trigger signal overrides.

Brahmastra - Stock Price Analysis | *Python, Pandas, NumPy*

- Co-developed a data analysis tool using Python to analyze historical stock trends and visualize market patterns.
- Engineered a robust data pipeline using Pandas for feature scaling and data cleaning to ensure accuracy.

ACHIEVEMENTS & CERTIFICATIONS

1st Place Winner, CodeVerse Hackathon | *IoT Health System*

July 2025

- Secured 1st place out of 200+ teams by architecting 'E.A.S.Y', a full-stack remote health monitoring solution.

Winner, E-CELL Case Study Competition | *Lenskart Strategy Analysis*

May 2024

- Led a team of three to victory, winning a 3,500 prize by delivering a comprehensive business strategy.

3rd Place Winner, Media Morphosis | *Data Analytics*

July 2025

- Placed top 3 out of 50+ teams by presenting a solution using data analytics and semantic algorithms.

Certifications

- Introduction to Machine Learning (NPTEL-Swayam, Elite Division)
- The Bits and Bytes of Computer Networking (Google/Coursera, 95.6% Score)
- C++ Deep Dive (Udemy) & Python Essentials (Vityarthi)
- Marketing Analytics (NPTEL - Swayam, Elite Division)
